

# Capital Wind Farm

---

Kings Highway  
Bungendore, New South Wales 2621  
Australia

The Capital Wind Farm is located in New South Wales southeast of Lake George, about 30 kilometres north east of Canberra. The wind farm was completed in 2009 and cost around A\$220 million. The wind farm was built as part of the Kurnell Desalination Plant project to offset the power usage of the desalination plant:

Company: Infigen Energy Pty Ltd

Capacity (MW): 132

Status: Operating

Start Year: 2009

Technology: Wind turbine
